Phase 2 Right of Way
Requirements for Party
Walls and Partial De-
molitions

DAVID J. GOLDBERG, COMMISSIONER
TRENTON 08625

May 27, 1968

MEMORANDUM TO ALL DESIGN UNITS:

Any buildings partially within the right of way or within a slope easement, or any party walls that may need restoration, must be reported to the Right of Way Coordinator sufficiently in advance of the Phase 2 Submission, in order for the Department to make a proper determination as to plan requirements.

If work is required, the Designer will be notified in sufficient time in order to facilitate engaging an architect. The architect shall prepare plans and specifications for a temporary restoration for buildings which are partially demolished and plans and specifications for permanent construction on affected party walls.
